Subject: SDS/MSDS

The June 1 reference is to a change in OSHA regulations for Safety Data Sheets (SDS). For products which require Safety Data Sheets by law, which DOES NOT include PGI products (because they are 1) Articles and 2) non-hazardous), Safety Data Sheets must be compliant with GHS (Global Harmonization Standard) rules. As noted above, PGI's products are 'articles' which are specifically exempt from OSHA rules. Our existing documents are 100% correct and fully meet all requirements - because there are none for our products.

PGI products are Articles which are exempt from OSHA Hazard Communication requirements and, as such, are not subject to GHS rules
