# SAFETY DATA SHEET

### 1. Identification

Product identifier	CHLORINE BLEACH	
Other means of identification		
SDS number	221LLB	
Product code	HIL00002	
Recommended use	Chlorinated Bleaching Compound	
<b>Recommended restrictions</b>	For Labeled Use Only	
Manufacturer/Importer/Supplier/Distributor information		
Manufacturer		
Company name	HILLYARD INDUSTRIES	
Address	302 North Fourth St.	
	St. Joseph, MO 64501	

Contact person	Regulatory Affairs
Telephone number	(816) 233-1321 (Ext. 8285)
Fax	(816) 383-8485
E-mail	regulatoryaffairs@hillyard.com
Emergency telephone #	(800) 424-9300
	(Only in the event of chemical emergency involving a spill, leak, fire, exposure or accident involving chemicals)

#### 2. Hazard(s) identification

Physical hazards	Oxidizing liquids	Category 2
	Corrosive to metals	Category 1
Health hazards	Skin corrosion/irritation	Category 1
	Serious eye damage/eye irritation	Category 1
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 1
	Hazardous to the aquatic environment, long-term hazard	Category 1
OSHA defined hazards	Not classified.	

Danger

Label elements

Signal word Hazard statement

Causes severe skin burns and eye damage. May be corrosive to metals. May intensify fire; oxidizer. Very toxic to aquatic life with long lasting effects. Very toxic to aquatic life.

Precautionary statement Prevention

Do not breathe dust/fume/gas/mist/vapors/spray. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Keep away from heat. Keep/Store away from clothing/combustible materials. Keep only in original container. Take any precaution to avoid mixing with combustibles.

Response	Immediately call a POISON CENTER or doctor/physician. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. In case of fire: Use CO2, dry chemical, or foam for extinction. Absorb spillage to prevent material damage.
Storage	Store locked up. Store in a corrosive resistant container.
Disposal	Dispose of contents/container to an approved waste disposal plant.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

# 3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
SODIUM HYPOCHLORITE		7681-52-9	12.5
Other components below reportable levels			87.5

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

#### 4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Rinse skin with water/shower. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Contact with combustible material may cause fire. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.
5. Fire-fighting measures	
Suitable extinguishing media	Foam. Powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Greatly increases the burning rate of combustible materials. Containers may explode when heated. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	May intensify fire; oxidizer. Contact with combustible material may cause fire.

#### 6. Accidental release measures

b. Accidental release measures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep away from clothing and other combustible materials. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.	
Methods and materials for containment and cleaning up	Use water spray to reduce vapors or divert vapor cloud drift. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up. This product is miscible in water. Prevent product from entering drains.	
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb spillage to prevent material damage. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.	
	Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.	
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.	
7. Handling and storage		
Precautions for safe handling	Keep away from heat. Take any precaution to avoid mixing with combustibles. Keep away from clothing and other combustible materials. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.	
Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat. Store in a cool, dry place out of direct sunlight. Store in corrosive resistant container with a resistant inner liner. Keep only in the original container. Store in a well-ventilated place. Do not store near combustible materials. Store away from incompatible materials (see Section 10 of the SDS).	

### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. AIHA Workplace Enviro Components	nmental Exposure Level (WEEL) Gu Type	ides Value
SODIUM HYPOCHLORITE (CAS 7681-52-9)	STEL	2 mg/m3
Biological limit values	No biological exposure limits noted f	or the ingredient(s).
Appropriate engineering controls	applicable, use process enclosures, maintain airborne levels below recor	used. Ventilation rates should be matched to conditions. If local exhaust ventilation, or other engineering controls to nmended exposure limits. If exposure limits have not been to an acceptable level. Eye wash facilities and emergency dling this product.
Individual protection measures, such as personal protective equipment		
Eye/face protection	Avoid contact with eyes. Wear safety	glasses with side shields (or goggles) and a face shield.
Skin protection Hand protection	Wear appropriate chemical resistant Frequent change is advisable.	gloves. Be aware that the liquid may penetrate the gloves.
Other	Avoid contact with the skin. If unable impervious clothing.	to avoid prolonged or repeated contact with skin, wear

Respiratory protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
Thermal hazards	Not available.
General hygiene considerations	Keep from contact with clothing and other combustible materials. Remove and wash contaminated clothing promptly. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

# 9. Physical and chemical properties

, ,	•
Appearance	Clear, yellow, liquid
Physical state	Liquid.
Form	Liquid.
Color	Yellow
Odor	Pungent chlorine odor
Odor threshold	Not available.
рН	13.2 Concentrate
	11.1 - 11.7 Liquid. (1% Solution)
Melting point/freezing point	-20 °F (-28.89 °C)
Initial boiling point and boiling range	225 °F (107.22 °C)
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	1.211 at 77°F
Solubility(ies)	
Solubility (water)	Soluble
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	10.08 lb/gal
Explosive properties	Not explosive.
Oxidizing properties	May intensify fire; oxidizer.
VOC	Not available
10. Stability and reactivity	
Reactivity	Greatly increases the burning rate of combustible materials. Reacts violently with strong acids. This product may react with oxidizing agents. May be corrosive to metals.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Heat. Contact with incompatible materials. Do not mix with other chemicals.
Incompatible materials	Acids. Strong oxidizing agents. Oxidizing agents. Combustible material. Reducing agents. Metals.
Hazardous decomposition products	No hazardous decomposition products are known.

# 11. Toxicological information

### Information on likely routes of exposure

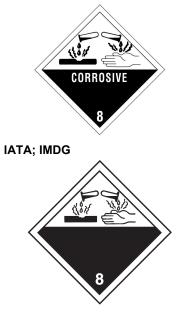

Inhalation May cause irritation to the respiratory system. Prolonged inhalation may be harm	nful.		
• • • • • • • • • • • • • • • • • • •			
Skin contact Causes severe skin burns.	Causes severe skin burns.		
Eye contact Causes serious eye damage.			
Ingestion Causes digestive tract burns.			
Symptoms related to the physical, chemical and toxicological characteristicsBurning pain and severe corrosive skin damage. Causes serious eye damage. S include stinging, tearing, redness, swelling, and blurred vision. Permanent eye da blindness could result.			
Information on toxicological effects			
Acute toxicity Not known.			
Skin corrosion/irritation Causes severe skin burns and eye damage.			
Serious eye damage/eye Causes serious eye damage. irritation			
Respiratory or skin sensitization			
Respiratory sensitization Not a respiratory sensitizer.			
Skin sensitization This product is not expected to cause skin sensitization.			
<b>Germ cell mutagenicity</b> No data available to indicate product or any components present at greater than mutagenic or genotoxic.	0.1% are		
Carcinogenicity Not classifiable as to carcinogenicity to humans.			
<ul> <li>IARC Monographs. Overall Evaluation of Carcinogenicity Not listed.</li> <li>US. National Toxicology Program (NTP) Report on Carcinogens Not listed.</li> <li>US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)</li> </ul>			
Not regulated.			
	This product is not expected to cause reproductive or developmental effects.		
Specific target organ toxicity - Not classified. single exposure			
Specific target organ toxicity - Not classified. repeated exposure			
Aspiration hazard Not an aspiration hazard.			
Chronic effects Prolonged inhalation may be harmful.			
12. Ecological information			
<b>Ecotoxicity</b> Very toxic to aquatic life with long lasting effects.			
Product Species Test Results			
CHLORINE BLEACH			
Aquatic			
Fish LC50 Fish 12.5274 mg/l, 96 hours	estimated		
Components Species Test Results			
SODIUM HYPOCHLORITE (CAS 7681-52-9)			
Aquatic			
Fish LC50 Chinook salmon (Oncorhynchus 0.038 - 0.065 mg/l, 96 ł tshawytscha)	hours		
* Estimates for product may be based on additional component data not shown.			
Persistence and degradability			
Bioaccumulative potential No data available.			
Mobility in soil         No data available.			
Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozo potential, endocrine disruption, global warming potential) are expected from this of			

# 13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	D002: Waste Corrosive material [pH <=2 or =>12.5, or corrosive to steel] The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

# 14. Transport information

DOT	
UN number	UN1791
UN proper shipping name	Hypochlorite solutions (SODIUM HYPOCHLORITE)
Transport hazard class(es)	
Class	8
Subsidiary risk	-
Label(s)	8
Packing group	III
· · ·	Read safety instructions, SDS and emergency procedures before handling.
Special provisions	IB3, N34, T4, TP2, TP24
Packaging exceptions	154
Packaging non bulk	203
Packaging bulk	241
ΙΑΤΑ	
UN number	
UN proper shipping name	Hypochlorite solution (SODIUM HYPOCHLORITE)

Transport in bulk according to	Not established.
Annex II of MARPOL 73/78 and	
the IBC Code	

# 15. Regulatory information

15. Regulatory mormation		
US federal regulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Standard, 29 CFR 1910.1200.	Communication
TSCA Section 12(b) Export N	lotification (40 CFR 707, Subpt. D)	
Not regulated.		
CERCLA Hazardous Substa	nce List (40 CFR 302.4)	
SODIUM HYPOCHLORIT	E (CAS 7681-52-9) Listed.	
SARA 304 Emergency release		
Not regulated.		
US. OSHA Specifically Regu	lated Substances (29 CFR 1910.1001-1050)	
Not regulated.		
Superfund Amendments and Rea	authorization Act of 1986 (SARA)	
Hazard categories	Immediate Hazard - Yes Delayed Hazard - No Fire Hazard - Yes Pressure Hazard - No Reactivity Hazard - No	
SARA 302 Extremely hazard	ous substance	
Not listed.		
SARA 311/312 Hazardous chemical	Νο	
SARA 313 (TRI reporting) Not regulated.		
Other federal regulations		
Safe Drinking Water Act (SDWA)	Not regulated.	
US state regulations	California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.	
International Inventories		
Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	Yes
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	Yes
China	Inventory of Existing Chemical Substances in China (IECSC)	Yes
Europe	European Inventory of Existing Commercial Chemical	Yes
Lalope	Substances (EINECS)	165

Country(s) or region	Inventory name	On inventory (yes/no)*
Europe	European List of Notified Chemical Substances (ELINCS)	Yes
Japan	Inventory of Existing and New Chemical Substances (ENCS)	No
Korea	Existing Chemicals List (ECL)	Yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	Yes
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s) A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
