# SAFETY DATA SHEET

## 1. Identification

| Product identifier                                     | MARINER              |  |  |
|--|----------------------|--|--|
| Other means of identification                          |                      |  |  |
| SDS number   | 584N-070A            |  |  |
| Product code   | HIL00477             |  |  |
| Recommended use  | Bathroom Cleaner     |  |  |
| <b>Recommended restrictions</b>                        | For Labeled Use Only |  |  |
| Manufacturer/Importer/Supplier/Distributor information |                      |  |  |
| Manufacturer   |                      |  |  |
| Company name   | HILLYARD INDUSTRIES  |  |  |
| Address  | 302 North Fourth St. |  |  |
|  | St. Joseph, MO 64501 |  |  |

| Contact person        | Regulatory Affairs  |  |
|-----------------------|---|--|
| Telephone number      | (816) 233-1321 (Ext. 8285)  |  |
| Fax                   | (816) 383-8485  |  |
| E-mail                | regulatoryaffairs@hillyard.com  |  |
| Emergency telephone # | (800) 424-9300  |  |
|                       | (Only in the event of chemical emergency involving a spill, leak, fire, exposure or accident involving chemicals) |  |

#### 2. Hazard(s) identification

| Physical hazards      | Not classified.  |            |
|-----------------------|--|------------|
| Health hazards        | Acute toxicity, oral                                   | Category 4 |
|                       | Skin corrosion/irritation                              | Category 1 |
|                       | Serious eye damage/eye irritation                      | Category 1 |
| Environmental hazards | Hazardous to the aquatic environment, acute hazard     | Category 2 |
|                       | Hazardous to the aquatic environment, long-term hazard | Category 3 |
| OSHA defined hazards  | Not classified.  |            |

Label elements

Signal word Hazard statement

Harmful if swallowed. Causes severe skin burns and eye damage. Causes serious eye damage. Toxic to aquatic life. Harmful to aquatic life with long lasting effects.

Do not breathe mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when

Precautionary statement Prevention

Response

using this product. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Wash contaminated clothing before reuse.

Danger

| Storage                                      | Store locked up.  |
|--|---|
| Disposal                                     | Buyer assumes all risk and liability associated with disposal of this product (original concentration<br>or dilution) in violation of applicable law in compliance with applicable federal, state and local<br>requirements. CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer clean, dry<br>container for recycling or reconditioning.  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.   |
| Supplemental information                     | Do not get in eyes, on skin, or on clothing. Use With Adequate Ventilation. Avoid breathing vapors or spray mist. Open windows and doors, use exhaust fans or other means to insure fresh air entry during application and drying. Personal Protective Equipment: When there is a danger of contact with the concentrate, use chemical safety goggles, impervious gloves, and protective clothing. Do not take internally. Keep container closed when not in use. |

## 3. Composition/information on ingredients

#### **Mixtures**

| Chemical name                                 | Common name and synonyms | CAS number | %         |
|---|--------------------------|------------|-----------|
| PHOSPHORIC ACID                               |                          | 7664-38-2  | 10 - < 20 |
| 1-Butoxy-2-propanol                           |                          | 5131-66-8  | 5 - < 10  |
| Citric Acid                                   |                          | 77-92-9    | 5 - < 10  |
| Alcohols (C12-15 In, Saturated)<br>Ethoxylate |                          | 68131-39-5 | 3 - < 5   |
| Alcohols, C9-11, Ethoxylated                  |                          | 68439-46-3 | 3 - < 5   |
| Other components below reportable             | e levels                 |            | 60 - < 70 |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

| 4. First-aid measures |    |
|-----------------------|----|
| Inhalation            | Mo |

| Inhalation   | Move to fresh air. Call a physician if symptoms develop or persist.  |  |  |
|--|--|--|--|
| Skin contact   | Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or<br>poison control center immediately. Chemical burns must be treated by a physician. Wash<br>contaminated clothing before reuse.   |  |  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.  |  |  |
| Ingestion  | Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.  |  |  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.  |  |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | rovide general supportive measures and treat symptomatically. Chemical burns: Flush with wate<br>nmediately. While flushing, remove clothes which do not adhere to affected area. Call an<br>mbulance. Continue flushing during transport to hospital. Keep victim warm. Keep victim under<br>bservation. Symptoms may be delayed. |  |  |
| General information  | nsure that medical personnel are aware of the material(s) involved, and take precautions to otect themselves. Show this safety data sheet to the doctor in attendance.   |  |  |
| 5. Fire-fighting measures  |  |  |  |
| Suitable extinguishing media   | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).  |  |  |
| Unsuitable extinguishing media   | Do not use water jet as an extinguisher, as this will spread the fire.   |  |  |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to health may be formed.  |  |  |
| Special protective equipment and precautions for firefighters                | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  |  |  |
| Fire fighting<br>equipment/instructions                                      | Move containers from fire area if you can do so without risk.  |  |  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.   |  |  |
| General fire hazards   | No unusual fire or explosion hazards noted.  |  |  |
|  |  |  |  |

#### 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |  |  |
|---|--|--|--|
| Methods and materials for<br>containment and cleaning up                  | This product is miscible in water. Should not be released into the environment. Prevent product from entering drains.  |  |  |
|   | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.  |  |  |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.   |  |  |
|   | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.  |  |  |
| Environmental precautions   | Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.   |  |  |
| 7. Handling and storage   |  |  |  |
| Precautions for safe handling   | Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure.<br>When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal<br>protective equipment. Wash hands thoroughly after handling. Avoid release to the environment.<br>Observe good industrial hygiene practices.  |  |  |
| Conditions for safe storage, including any incompatibilities              | Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).  |  |  |

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| US. OSHA Table Z-1 Limits<br>Components | for Air Contaminants (29 CFR 1910.<br>Type  | 00)<br>Value |  |
|---|---|--------------|--|
| PHOSPHORIC ACID (CAS<br>7664-38-2)      | PEL   | 1 mg/m3      |  |
| US. ACGIH Threshold Limit               | Values  |              |  |
| Components                              | Туре  | Value        |  |
| PHOSPHORIC ACID (CAS<br>7664-38-2)      | STEL  | 3 mg/m3      |  |
|   | TWA   | 1 mg/m3      |  |
| US. NIOSH: Pocket Guide to              | o Chemical Hazards  |              |  |
| Components                              | Туре  | Value        |  |
| PHOSPHORIC ACID (CAS<br>7664-38-2)      | STEL  | 3 mg/m3      |  |
|   | TWA   | 1 mg/m3      |  |
| Biological limit values                 | No biological exposure limits noted for the ingredient(s).  |              |  |
| Appropriate engineering controls        | Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |              |  |
| Individual protection measures          | , such as personal protective equip   | ment         |  |
| Eye/face protection                     | Avoid contact with eyes. Use safety eyewear with splash guards or side shields, chemical goggles, or face shields.  |              |  |
| Skin protection                         |   |              |  |
| Hand protection                         | Wear appropriate chemical resistant gloves.   |              |  |
| Other                                   | Avoid contact with the skin. Impervious boots and aprons where splashing of concentrate is a problem; otherwise, use uniforms or coveralls.   |              |  |

Material name: MARINER

| Respiratory protection            | If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.       |  |
|-----------------------------------|---|--|
| Thermal hazards                   | None known.   |  |
| General hygiene<br>considerations | Keep away from food and drink. Always observe good personal hygiene measures, such as<br>washing after handling the material and before eating, drinking, and/or smoking. Routinely was<br>work clothing and protective equipment to remove contaminants. |  |

#### 9. Physical and chemical properties

| 9. Physical and chemical p                 | broperties   |
|--|--|
| Appearance                                 | Clear, blue liquid   |
| Physical state                             | Liquid.  |
| Form                                       | Liquid.  |
| Color                                      | Blue   |
| Odor                                       | Floral fragrance   |
| Odor threshold                             | Not available  |
| рН   | < 2  |
| Melting point/freezing point               | Not applicable / Not available   |
| Initial boiling point and boiling range    | 211 °F (99.44 °C)  |
| Flash point                                | > 200.0 °F (> 93.3 °C) Closed Cup  |
| Evaporation rate                           | < 1 (ethyl ether = 1)  |
| Flammability (solid, gas)                  | Not applicable.  |
| Upper/lower flammability or exp            | losive limits  |
| Explosive limit - lower (%)                | Not available.   |
| Explosive limit - upper (%)                | Not available.   |
| Vapor pressure                             | 16.99 mm Hg  |
| Vapor density                              | 1.3225 AIR=1   |
| Relative density                           | 1.0904 at 77°F   |
| Solubility(ies)                            |  |
| Solubility (water)                         | 100 % Complete   |
| Partition coefficient<br>(n-octanol/water) | Not available  |
| Auto-ignition temperature                  | Not available  |
| Decomposition temperature                  | Not available  |
| Viscosity                                  | Not available  |
| Other information                          |  |
| Density                                    | 9.08 lb/gal  |
| Explosive properties                       | Not explosive.   |
| Oxidizing properties                       | Not oxidizing.   |
| Percent volatile                           | 69 - 71 %  |
| VOC  | 9.83 % Concentrate   |
| 10. Stability and reactivity               |  |
| Reactivity                                 | Reacts violently with strong alkaline substances. This product may react with reducing agents.   |
| Chemical stability                         | Material is stable under normal conditions.  |
| Possibility of hazardous reactions         | Hazardous polymerization does not occur.   |
| Conditions to avoid                        | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials. Do not mix with other chemicals. |
| Incompatible materials                     | Bases. Reducing agents.  |
| Hazardous decomposition<br>products        | No hazardous decomposition products are known.   |

## 11. Toxicological information

### Information on likely routes of exposure

| Information on likely routes of  | exposure   |   |  |  |  |
|--|--|---|--|--|--|
| Inhalation   | May cause i  | irritation to the respiratory                             | system. Prolonged inhalation may be harmful. |  |  |
| Skin contact   | Causes sev   | Causes severe skin burns.                                 |  |  |  |
| Eye contact  | Causes seri  | Causes serious eye damage.                                |  |  |  |
| Ingestion  | Causes digestive tract burns. Harmful if swallowed.  |   |  |  |  |
| Symptoms related to the physical, chemical and toxicological characteristics | Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.                  |   |  |  |  |

|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | D002: Waste Corrosive material [pH <=2 or =>12.5, or corrosive to steel]<br>The waste code should be assigned in discussion between the user, the producer and the waste<br>disposal company.                    |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.       |
