

Contender® Gym Marking Paint

Brilliant Contender® Gym Marking Paints For Water-Based Systems

Features & Benefits

- Color brushes on easily.
- Four standard colors are kept ready and in stock.
- High gloss latex paint.

Directions

PREPARATION: Proper floor preparation and adherence to label directions are critical for successful results. After the floor has been sealed, abrade entire floor with maroon pads (250 sq. ft. per side of pad). Tack the floor with Hillyard Tack-It®. Lay masking tape (blue painter's tape) according to official game measurements. Roll or rub inside edge firmly to prevent paint creeping under the tape. For retouching or re-marking old floors, consult your Hillyard representative.

Application: STIR THOROUGHLY UNTIL UNIFORM - DO NOT SHAKE. Apply a thin, uniform coat with a foam brush, or synthetic applicator for large areas. If a second coat is needed, allow first coat to dry 4 hours before applying. After final coat of paint has dried 30 minutes, remove masking tape. After the paint has dried 12 hours, abrade entire floor with maroon pads under a single brush floor machine. If seal or paint dries longer than 48 hours, abrade with 150 grit discs. Tack before applying finish.

NOTE: During the coating process, if the seal or paint dries longer than 48 hours after abrasion, re-abrade entire floor before applying additional coats of product to ensure proper adhesion of coatings.

NOTICE: Keep containers closed when not in use. Do not pour unused material back into container. Best results are obtained with adequate ventilation and floor temperatures above 60°F (16°C). Do not store part-full containers of material for long periods of time. Brushes can be cleaned with warm soapy water. Do not mix solution with detergents containing ammonia.

Safety

See material safety data sheet and product label for safety information, handling and proper use.
