

# Hillyard Slip Resistant Concrete Sealer Additive

HILLYARD  
CONCRETE  
DEFENSE®

Hillyard Slip Resistant Concrete Sealer Additive is a unique texture additive that, when added to the FINAL topcoat of Hillyard Concrete Defense seals HT, HTG or HTB, can reduce the potential for slipping. This product will not change the color of the floor coating.

## Features & Benefits

- Reduces the potential for slipping
- Does not change the color of the floor
- For use on stairs, indoor decks, and walkways

## Directions

### Mixing Instructions

Additive Amounts:

- Mix 3.6 ounces (about a cap full) of additive per gallon of seal.
- Mix 18 ounces (entire container) of additive per 5 gallons of seal.
- Additive to HT, or HTG: Mix parts A and B of HT, HTG or HTB. After mixing, pour proper amount of additive into seal. Use a drill mixer to thoroughly incorporate additive into seal.

## Safety

See material safety data sheet and product label for safety information, handling and proper use.
